Mission Statement & Goals

Mission Statement

The game of soccer in this country has progressed at a significant rate. The European influence on the game has been strikingly evident. Not only has the style of play been enhanced, also the structure of youth development has shifted. European countries have utilized a system that collects the highest talent available at the youth level and expose those players to advanced training in order to prepare for the professional ranks.

With more attention brought to the game by Major League Soccer (MLS) and the success of our Men's and Women's National Teams, parents and players are seeking advanced methods of training outside the traditional recreation town setting that has been the norm.

The New Jersey Rangers FC has been created to give players with the desire and dedication to excel, advanced training and experiences that will prepare them for the college level and beyond.
